Education

ABV-Indian Institute of Information Technology and Management, Gwalior **Aug 2023 – Present**
Integrated B.Tech + M.Tech in Information Technology *CGPA: 8.45/10*

- **Relevant Coursework:** Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Artificial Intelligence, Machine Learning

Technical Skills

Programming Languages: C++, Python, JavaScript

Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication, API Integration

Databases: MongoDB, PostgreSQL, MySQL

Cloud & Deployment: AWS, Vercel, Cloudflare

Developer Tools: Git, GitHub, Postman, Prisma

Projects

ABV-IIITM Semester Registration System *Apr 2026 – May 2026*
Technologies: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs *Live | GitHub*

- Developed a full-stack semester registration platform using React.js, Node.js, Express.js, and MongoDB for students, faculty, and administrators.
- Implemented role-based authentication and authorization using JWT with secure session handling and protected API routes.
- Architected dynamic course registration workflows with credit validation, backlog management, and prerequisite constraint handling.
- Integrated RESTful APIs for course management, registration approval, and student information processing.
- Systematized PDF generation and document workflows, reducing manual administrative processing time by 40%.

BizNova – AI-Powered Business Intelligence Platform *Oct 2025 – Feb 2026*
Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Google Gemini API *Live | GitHub*

- Created an AI-powered business management platform for retailers to manage sales, inventory, expenses, and customer records using the MERN stack.
- Incorporated Google Gemini API to enable natural language interactions and AI-assisted business insights for operational workflows.
- Implemented real-time inventory and order management modules with mechanized stock validation and synchronization across customer and retailer systems.
- Streamlined bill-scanning and image-processing workflows for computerized inventory updates and expense tracking.
- Architected RESTful APIs and MongoDB data models for scalable data handling and secure backend operations.

Achievements

- Winner, **AI for All Hackathon 2026** at India AI Impact Summit. **Certificate**
- Top Performer, **HACKSAGON 2026** among 2600+ participating teams nationwide. **Certificate**
- Finalist, **OpenAI x Nxtwave Buildathon 2025** for developing an AI-based product solution. **Certificate**
- Secured Rank 1578 in **CodeFest'25**, a national-level competitive programming contest. **Certificate**

Competitive Programming

- Solved 300+ Data Structures and Algorithms problems covering arrays, graphs, dynamic programming, and greedy algorithms on **LeetCode**.
- Active competitive programmer on **CodeChef**, focusing on algorithm optimization and problem-solving.

Certifications

- **Google Cloud Certification (2025)** — [View Credential](#)
- **Oracle Cloud Infrastructure AI Foundations Associate (2025)** — [View Credential](#)
- **Social Summer of Code (SSOC) 2025 Participant** — [View Certificate](#)
